TECHNOFACADE COTTAGE - nonflammable, water-repellent thermal and sound insulation stonewool slabs.

Application areas:

TECHNOFACADE COTTAGE slabs are designed to be used in ETICS facade systems.

Description of material:

Stonewool insulation boards. Provides an excellent combination of compressive and tensile strength as well as thermal, fire and acoustic performance. The product is moisture resistant due to a water repellent additive that provides additional protection during installation and long-term performance of insulation.

Storage:

The slabs must be stored in covered warehouses. Storage under an awning protecting the slabs from atmospheric precipitation is permitted. The slabs shall be stored into containers or stacked on the pallets or on the supports during whole period of storage. The height of the stack shall not exceed 3 meters.
